

PACKAGING SOLUTIONS

Slit Packing Lines

Slit packaging lines custom made for our customers, to reduce costs, increase production and eliminate bottle necks. For both, coil and bundle packaging.

We offer different solutions to reduce/avoid manual operations and increase the productivity of the line.

Optimization of the process from the simplest application to the most sophisticated packaging concept.

Sheet Packing Lines

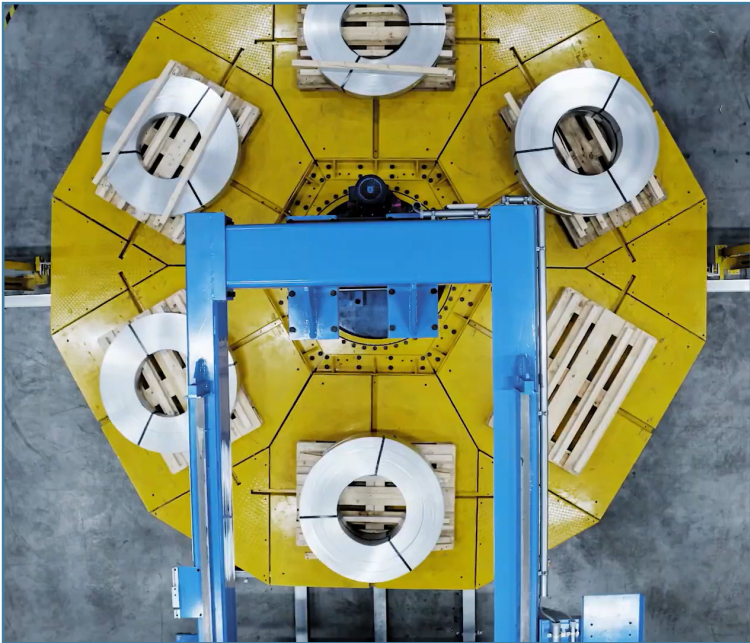

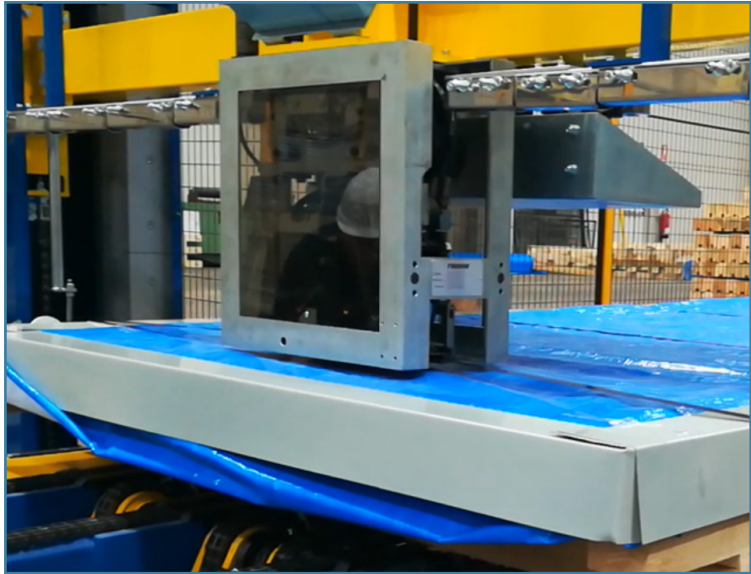

Sarralle is specialized in the manufacturing of automatized exit of processing lines, assuring best quality and high-speed packaging lines.

The automatic packaging lines guarantee cost reduction and increased productivity.

Moreover, once having studied our client's requirements, Sarralle is capable of presenting a tailor-made automatic line assuring a decrease in production costs.
